BF MIRROR

BF MIRROR

PRODUCT DESCRIPTION

The BF MIRROR SERIES is a special thermo-adhesive film covered by a very glossy polyester sheet (PET), free of PVC, plasticizers or heavy metals, which gives a total mirrored effect EVEN AFTER THE APPLICATION thanks to its rigid conformation.

The cutting line is highly visible, and the workability of the product is simple; its polyester adhesive carrier allows for fast weeding and easy repositioning of any small details that might have accidentally lifted from the carrier. The cutting plotters blade integrity significantly determines the workability of the film.

It is not suitable for multilayer applications.

APPLICATION INSTRUCTIONS

- Mirror cut BF MIRROR, with a 45° blade.
- Weed the BF MIRROR and remove the excess materials.
- Pre-heat your press to 150°C.
- Place the garment on the lower platen of your heat press.
- Place the your BF MIRROR design on the garment.
- Press at 150°C for 12 seconds.
- Wait 5-7 seconds before peeling the carrier.
