Whiteness (R457+):	min. 95% nach ISO 2470
Opacity:	ca. 92%
Width of rolls:	17", 24", 36", 42", 50", 54"
Length of rolls:	45 m
Storage:	at 15°C - 25°C, 50% rel. humidity
Shelf life:	24 month in original boxes

### COMPATIBLE INKS:

Dye:	yes
Pigment:	yes

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

## EMBLEM Pro Opaque Coated 90 Plus

### Description:

EMBLEM Pro Opaque Coated 90 Plus is a light weight, white paper with a matt coating. The smooth surface of the coating provides excellent printing results. You can print on POC90+ with common dye, pigment and UltraChrome inks. The special amount of the coating permits a fast drying and short workflow. EMBLEM POC90+ supports sharp lines at drawings.

### Processing:

We advise cold or hot lamination to protect the prints from abrasion. We recommend lamination films from the EMBLEM LAMPER Series for cold lamination. Before lamination the print has to be completely dry, otherwise there is the risk of bubbles.

Please store the paper in original packing.

To avoid fingerprints the use of cotton-gloves is advisable.

### Application:

Typical applications for EMBLEM POC90+ are shop window advertising, posters, presentations, form proof, renderings and GIS maps.

### Product recommendation:

We recommend to use EMBLEM LAMPER series films for cold lamination.
