SERIES

TRUCK FILM

PRODUCT USE

Gloss Transparent Cast Truck Film, specifically designed to laminate AP/280. Equipped with the exclusive APA-ColTruck/Ultra-P Plus adhesive, L/291.1 has been formulated to weld onto the surface of the AP/280 and with it resist the strains to which the PVC curtain are subjected. Ideal to give images a bright finish. The film provides excellent resistance to the elements. Elastic, conformable and does not shrivel up. With an excellent mechanical and UV ray protection, L/291.1 is recommended to improve the durability of printed images onto APAPrint film listed in the section "Application" of this Technical Data Sheet.

STOCK AVAILABILITY

Available from the 1st week of July
